

# Enrichment

## Our vision

Education at Sir John Talbot's School radiates well beyond the classroom and the school offer a wide range of after school clubs and enrichment activities. Independent study is encouraged and staff and facilities are accessible to facilitate and support this.

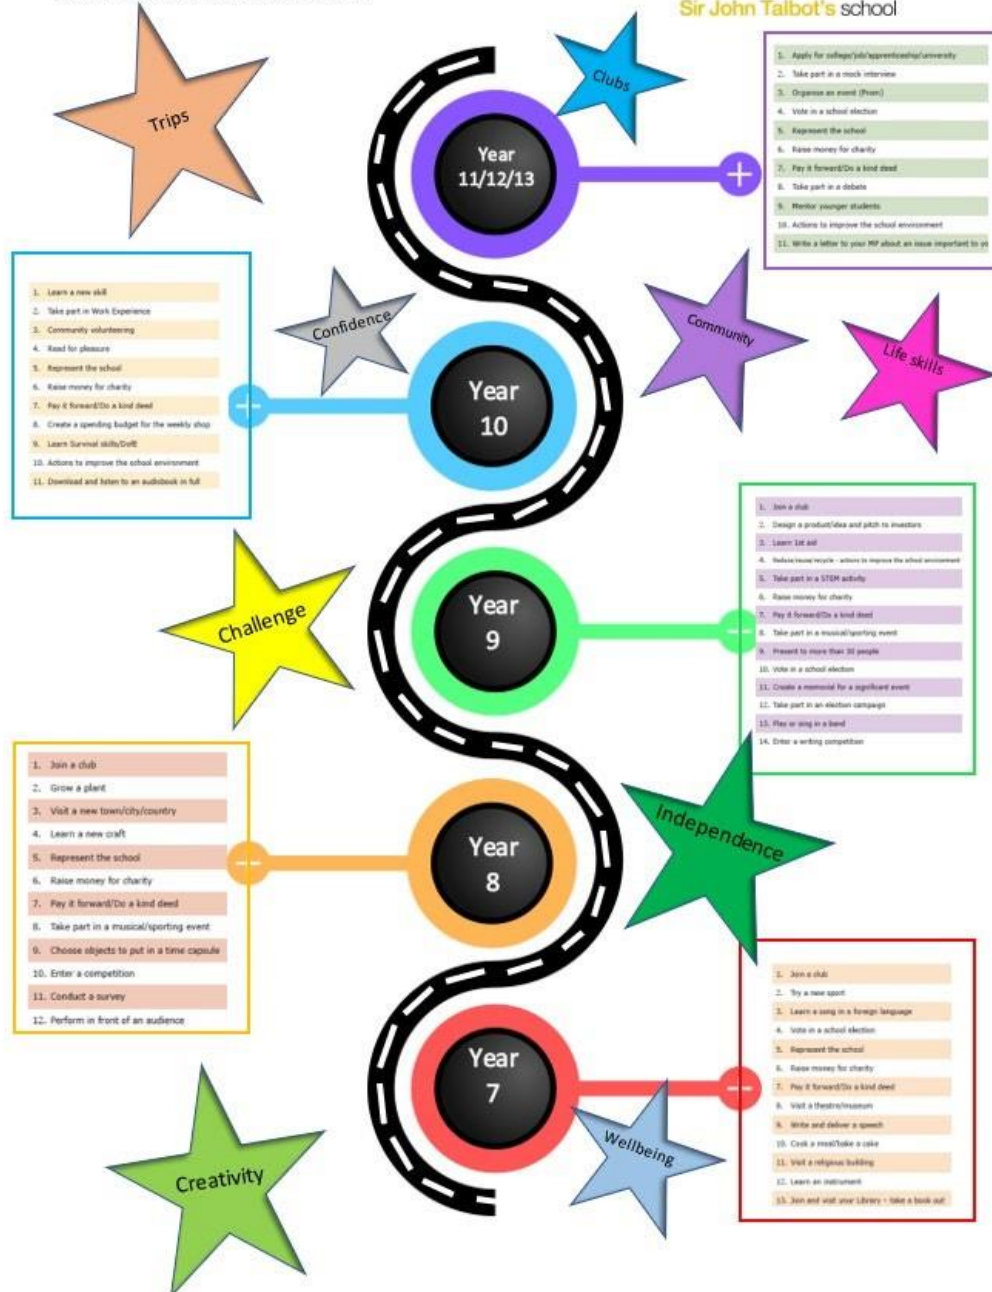

Students have access to enrichment both within lessons and outside of curriculum time. The student pledge suggests activities that students can complete but they are welcome to come up with their own.

Every activity, trip, club allows students to develop and experience new skills and attributes and this in turn adds to the learning journey of our students.
