

Our Golden Thread

We have worked alongside RADY (Raising the Attainment of Disadvantaged Youngsters) to develop a 'Golden Thread' approach to closing the disadvantaged gap. This means that in every aspect of school life, we view it through the eyes of a disadvantaged student. Our School Development Plan, our Faculty Development Plans and our data analysis all has a 'golden thread' ensuring that all leaders are driving our aim to close the gap in their respective areas.

We aim for proportional representation of disadvantaged students in every area of our school whether this be attendance at a school trip or fixture or in our academic setting. This is so that our disadvantaged students are academically challenged and are engaging in the wider curriculum in order to develop cultural capital.
